

Beran Farm

Beran Dairy was started in 1960 by Joe and Gertie Beran. They began with 120 acres and a few cows. Through steady growth the farm grew to 60 cows and 220 acres.

In 1994, son Allan and his wife Vicky took over the farm with sons Jason and Jeremy. We now milk 120 cows and have 120 head of young stock with 550 owned and rented crop acres.

Today Jeremy, Jason and wife Stacy, and nephews Adam and Noah work on the farm with Vicky and Allan.
